SIR:

Prior to examination, please amend the above-identified application, as follows:

IN THE CLAIMS:

Please cancel claims 19-40, without prejudice, and add the following claims:

C' --41. (New) A system of light units, which have different light emission properties, each light unit comprising:

- a support structure;
- at least one hollow light guide with a cavity;
- at least one lamp for directing light into the cavity;
- optical components having light directing properties for influencing the beam path of the light output from the lamp;
- at least one of said optical components being a light permeable component having a medium with a first index of refraction and having a boundary surface with a medium of a second index of refraction different from the first, said light permeable component being part of a light output device and said boundary surface being provided with a light-refractive structure for deflecting light in at least one plan directed perpendicular to a
